

Wastewater Capital Improvements Program Project

SS7323 – Food Lion Pump Station Improvements Project Details:

Sewer Basins: Smith Branch 01

Project Description and Purpose:

The Food Lion PS Improvements project consists of the replacement of the existing Food Lion Pump Station with approximately 4,150 LF of 8-inch gravity sewer. The new sewer line will serve the area currently being served by the Food Lion Pump Station as well as residential lots on Brookland Circle and commercial lots on Beltline Blvd.

Approximate Budget	Status of Project – Under Design	End Date
\$1.6 million	<div style="border: 1px solid black; width: 100%; height: 40px; margin-bottom: 5px;"></div> <p style="text-align: center;">Estimated Construction Start Date April 2019</p> <p style="text-align: right;">0% Complete</p>	Winter 2020

Public Benefit of Project:

- Increased Operational Efficiency and Reliability
- Reduced Potential for Sanitary Sewer Overflows
- Improved Ability to Meet Increased Capacity Requirements
